## **Veracyte, Inc. to Host Conference Call and Webcast to Discuss Third Quarter 2014 Financial Results on November 13, 2014**

SOUTH SAN FRANCISCO, Calif., Nov. 6, 2014 /PRNewswire/ -- [Veracyte, Inc.](http://www.veracyte.com) (Nasdaq: VCYT) announced today that its third quarter 2014 financial results will be released after close of market on Thursday, November 13, 2014. Following the announcement, Veracyte's management will host a live conference call and webcast at 5:00 p.m. Eastern Time to discuss the company's financial results and provide a general business update.

The live webcast and subsequent replay may be accessed by visiting Veracyte's website at <http://investor.veracyte.com>. Please connect to the website at least 15 minutes prior to the live webcast to ensure adequate time for any necessary software download. Alternatively, please call (855) 541-0980 (U.S.) or (970) 315-0440 (international) to listen to the live conference call. The conference ID number for the live call is 19984524. Please dial in approximately 10 minutes prior to the call. The webcast will be available on the company's website approximately two hours following completion of the call for 14 days.

### **About Veracyte**

Veracyte (Nasdaq: VCYT) is pioneering the field of molecular cytology, focusing on genomic solutions that resolve diagnostic ambiguity and enable physicians to make more informed treatment decisions at an early stage in patient care. By improving preoperative diagnostic accuracy, the company aims to help patients avoid unnecessary invasive procedures while reducing healthcare costs. Veracyte's first commercial solution, the Afirma<sup>®</sup> Thyroid FNA Analysis, centers on the proprietary Afirma Gene Expression Classifier (GEC) to resolve ambiguity in diagnosis and is becoming a new standard of care in thyroid nodule assessment. Since launching its Afirma solution in 2011, Veracyte estimates it has helped approximately 10,000 patients with thyroid nodules avoid unnecessary surgery, reducing healthcare costs by millions of dollars. Afirma is recommended in leading practice guidelines and is covered for more than 135 million lives in the United States, including through Medicare and most commercial insurance plans. Veracyte intends to expand its molecular cytology franchise to other clinical areas, beginning with difficult-to-diagnose lung diseases. The company is in late product development for a genomic test to resolve preoperative ambiguity in lung nodules that are suspicious for cancer. Veracyte is also developing a second product in pulmonology, targeting interstitial lung diseases that include idiopathic pulmonary fibrosis.
