## **Veracyte, Inc. Files Registration Statement for Initial Public Offering**

**South San Francisco, Calif. – September 20, 2013** - Veracyte, Inc. today announced that it has filed a registration statement on Form S-1 with the Securities and Exchange Commission relating to a proposed initial public offering of its common stock. All of the shares to be sold in the proposed offering will be offered by Veracyte, Inc. The number of shares to be offered and the price range for the proposed offering have not yet been determined.

Morgan Stanley and Leerink Swann will act as joint book-running managers for the offering. William Blair and Cowen and Company will act as co-managers.

A registration statement relating to these securities has been filed with the Securities and Exchange Commission, but has not yet become effective. These securities may not be sold nor may offers to buy be accepted prior to the time that the registration statement becomes effective. This press release shall not constitute an offer to sell or the solicitation of an offer to buy these securities, nor shall there be any sale of these securities in any state or jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state or jurisdiction.

The offering will be made only by means of a prospectus. Copies of the preliminary prospectus related to the offering may be obtained, when available, from Morgan Stanley & Co. LLC, Attention: Prospectus Department, 180 Varick Street, New York, NY 10014, telephone: 1-866-718-1649, or email: [prospectus@morganstanley.com](mailto:prospectus@morganstanley.com); and Leerink Swann LLC, Attention: Syndicate Department, One Federal Street, 37th Floor, Boston, MA 02110, telephone: 1-800-808-7525 or email: [Syndicate@Leerink.com](mailto:Syndicate@Leerink.com).

### **About Veracyte, Inc.**

Veracyte is focused on discovering, developing and commercializing molecular cytology solutions that enable physicians to make more informed treatment decisions at an early stage in patient treatment, thus helping patients avoid unnecessary invasive procedures while reducing healthcare costs. Veracyte's first commercial solution, the Afirma® Thyroid FNA Analysis, includes the Gene Expression Classifier (GEC). The GEC helps physicians reduce the number of unnecessary surgeries by employing a proprietary 142-gene signature to preoperatively determine whether thyroid nodules previously classified by cytopathology as indeterminate can be reclassified as benign. The clinical utility and cost effectiveness of the GEC have been demonstrated in studies published in peer-reviewed journals and the clinical validity of the GEC has been demonstrated in a study published in *The New England Journal of Medicine* in 2012. Since the commercial launch of Afirma in January 2011, Veracyte has processed over 50,000 fine needle aspiration (FNA) samples for evaluation using Afirma and has performed more than 10,000 GECs to resolve indeterminate cytopathology results. Veracyte has obtained positive coverage decisions for Afirma from Aetna, Humana, Medicare and UnitedHealthcare. Collectively, these payers represent more than 100 million covered lives. Afirma is marketed and sold in the United States through a global co-promotion agreement with Genzyme Corporation, a subsidiary of Sanofi. Veracyte and Afirma are trademarks of Veracyte, Inc. This press release also contains trademarks and trade names that are the property of their respective owners.
