Forward-Looking Statements

This presentation contains statements that are not historical and that are based on our beliefs and assumptions and on information currently available to us. These statements constitute forward-looking statements within the meaning of the Safe Harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are subject to known and unknown risks, uncertainties, assumptions, and other factors that could cause actual results to differ materially from our expectations.

Forward-looking statements can be identified by words such as: "anticipate," "intend," "plan," "expect," "believe," "should," "may," "will" and similar references to future periods. Examples of forward-looking statements include, among others, statements regarding Veracyte's anticipated timing of launches of new products in 2021, Veracyte's plans, objectives, expectations (financial and otherwise) or intentions with respect to the anticipated acquisition of Decipher, the expected timing for Veracyte's completion of the Decipher acquisition and its expected benefits, availability of Veracyte's testing internationally, Veracyte's total addressable market, the current and future impacts of COVID-19 on Veracyte's business, actions Veracyte has taken, or will take, in response to COVID-19, potential timing for a recovery of Veracyte's business, the catalysts to drive momentum through 2021 and Veracyte's long-term outlook. Forward-looking statements are neither historical facts nor assurances of future performance, but are based only on our current beliefs, expectations and assumptions. These statements involve risks and uncertainties, which could cause actual results to differ materially from our predictions, and include, but are not limited to: the impact of COVID-19 on Veracyte's business and operating results, specifically, and the healthcare system and economy more generally, Veracyte's ability to achieve and maintain Medicare coverage for its tests; the benefits of Veracyte's tests and the applicability of clinical results to actual outcomes; the laws and regulations applicable to Veracyte's business, including potential regulation by the Food and Drug Administration or other regulatory bodies; Veracyte's ability to successfully achieve and maintain adoption of and reimbursement for its products; the amount by which use of Veracyte's products are able to reduce invasive procedures and misdiagnosis, and reduce healthcare costs; the occurrence and outcomes of clinical studies; and other risks set forth in Veracyte's filings with the Securities and Exchange Commission. Factors that may impact these forward-looking statements can be found in Item 1A – "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2020. These forward-looking statements speak only as of the date hereof and Veracyte specifically disclaims any obligation to update these forward-looking statements or reasons why actual results might differ, whether as a result of new information, future events or otherwise.

Veracyte, Afirma, Percepta, Envisia, Prosigna, Lymphmark, Know by Design, the Veracyte logo, the Percepta logo, the Envisia logo and Afirma logo are trademarks of Veracyte, Inc. This presentation also contains trademarks and trade names that are the property of their respective owners.

Our vision is to improve
outcomes for patients all
over the world at every
step of their journey.

Q4 2020 – Key Takeaways

Strong Q4 ...

- Total revenue of \$34.5 million +16% v.PYQ and +11% v.SeqQ
- Testing and product revenue +16% v.PYQ and +13% v.SeqQ
- Testing and product volume +14% v.PYQ and +12% v.SeqQ
- Testing and product revenue per test ~\$2,600 in-line with PYQ + SeqQ

Commercial momentum...

- Announced preliminary performance data for two pipeline lung cancer tests: noninvasive nasal swab and Percepta Genomic Atlas
- Implemented new GM Structure to advance global expansion
- Expanded strategic collaboration with LCI at JNJ for NOBLE trial
- Prosigna now approved for reimbursement in Germany

Pipeline launches + Decipher acquisition to accelerate growth...

- Nasal swab and Percepta Genomic Atlas on track for 2H 2021
- Envisia Classifier on nCounter for international launch end of 2021
- Decipher acquisition expected to close on or before April 1, 2021
- Guidance: \$190-200 million in 2021 revenue (+65% v.PY at midpoint), pending close of acquisition of Decipher Biosciences by April 1st

Financial discipline...

- Gross margins of 68% for Q4 2020 and 65% for FY2020
- Positive CFFO of \$2.3 million in Q4 (\$4.0 million for 2H 2020)
- Total cash used in operations for FY2020 <\$10 million
- Solid cash position of \$349M at Dec 31, 2020

Note: Numbers presented in this presentation may vary from SEC filings due to rounding.

Our foundational strategy drives our business

Relevant Questions

Integrated into current care pathway to change practice and reduce surgeries

Scientific Rigor

Build robust scientific and clinical evidence; inform guidelines

Value Creation

Clinical utility and economic value that change the standard of care

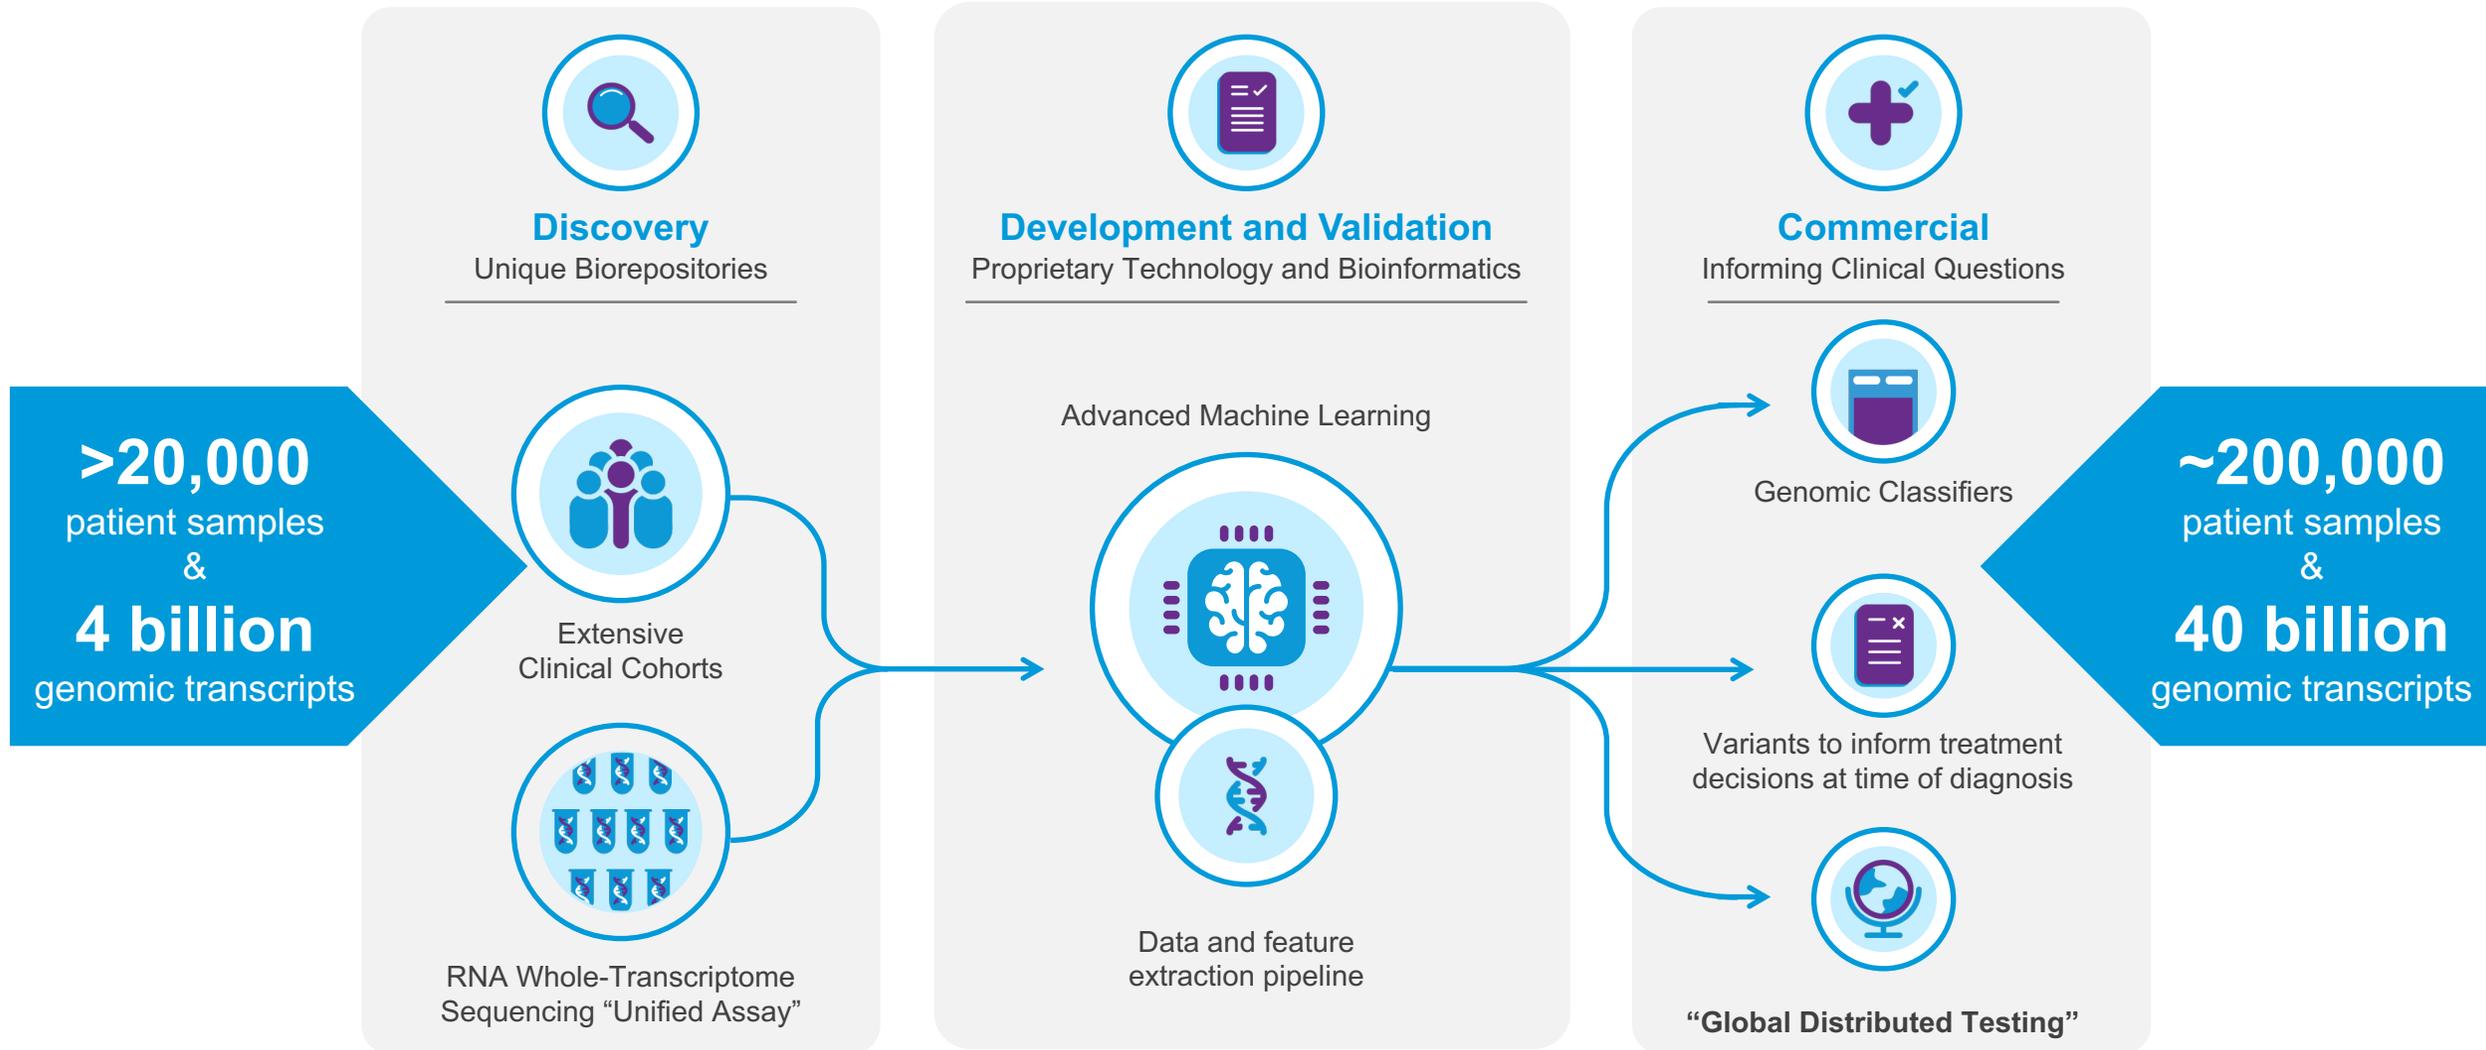

Successful Reimbursement

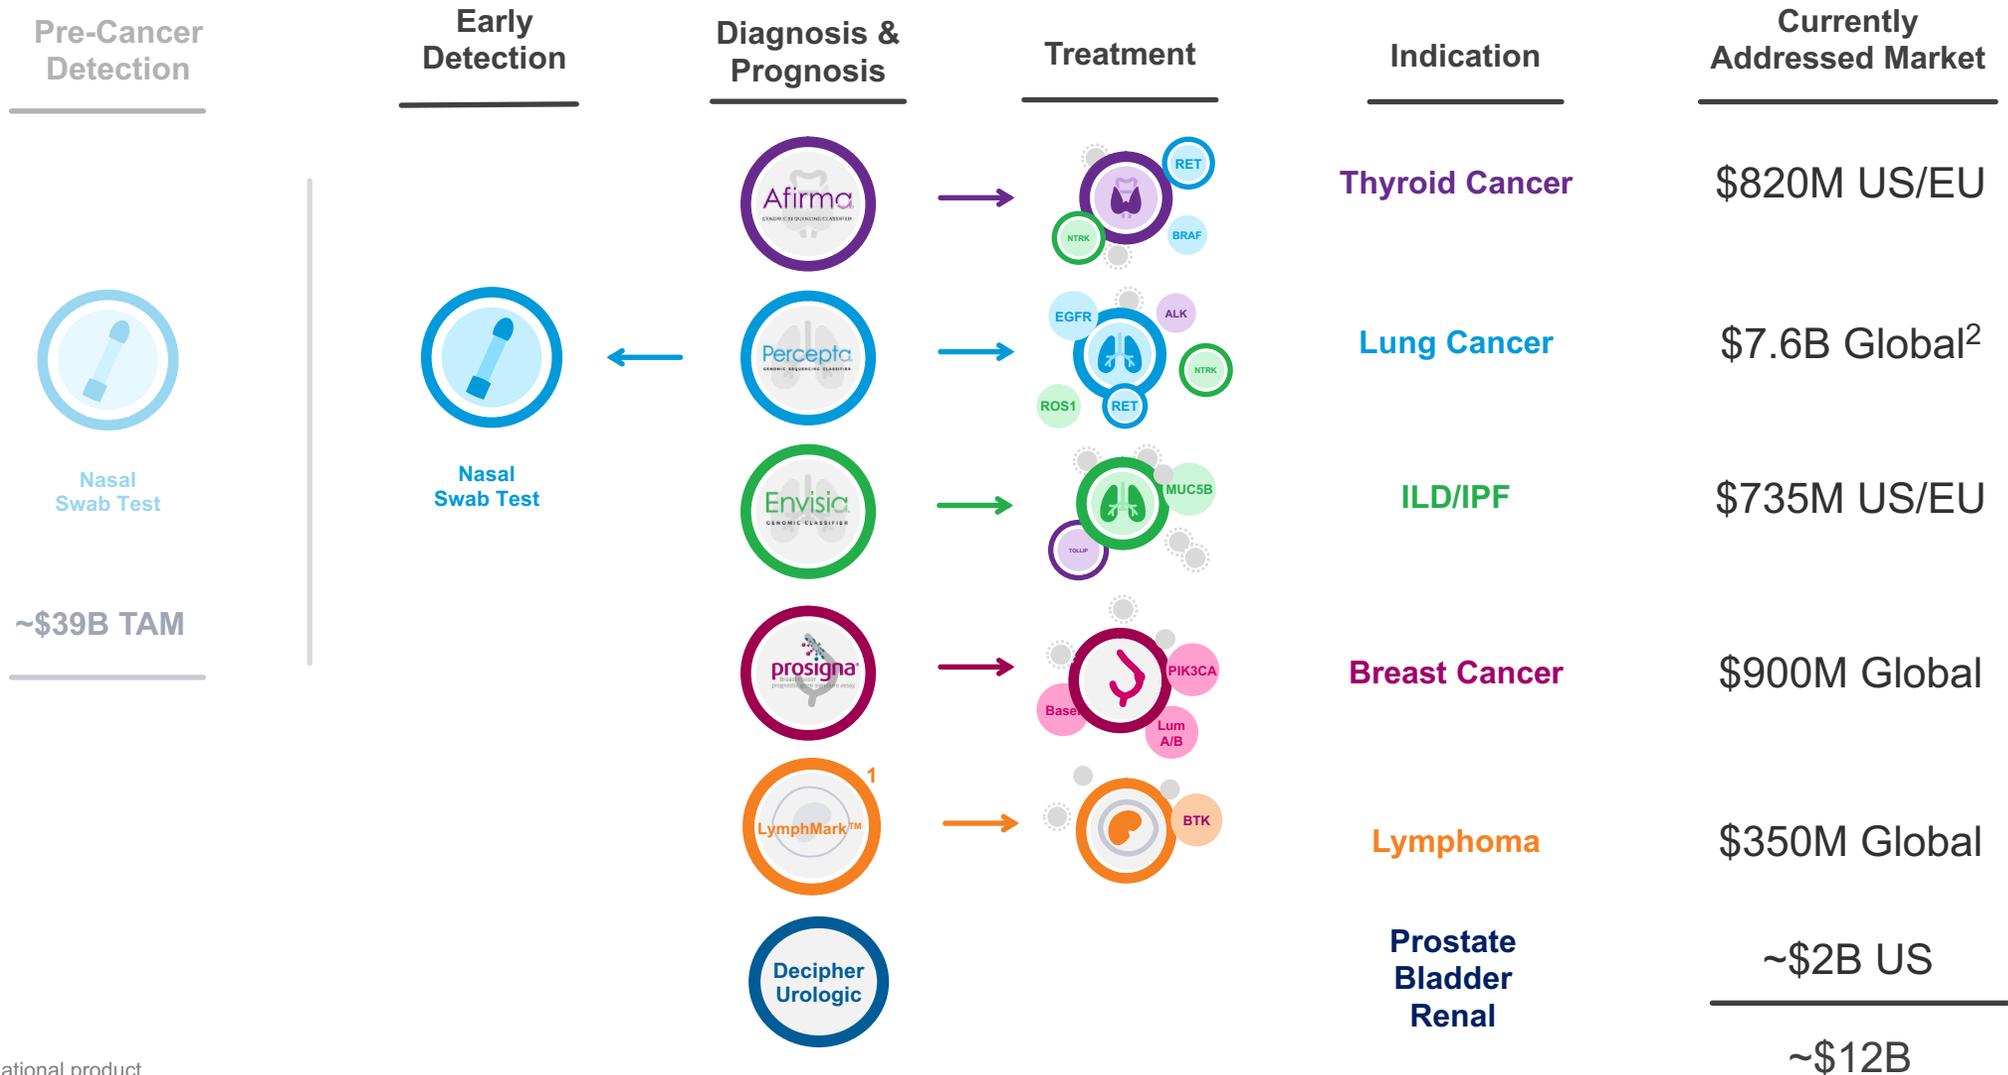

Extensive coverage policies and contracted relationships pave way for additional tests

Our powerful science and technology

Enables innovation from large-scale clinical biorepositories

Genomic tests targeting multiple diseases across care continuum

1 Investigational product

2 Percepta Genomic Atlas is US only

Combination creates comprehensive portfolio of novel genomic diagnostic tests addressing 7 of the top 10 cancers

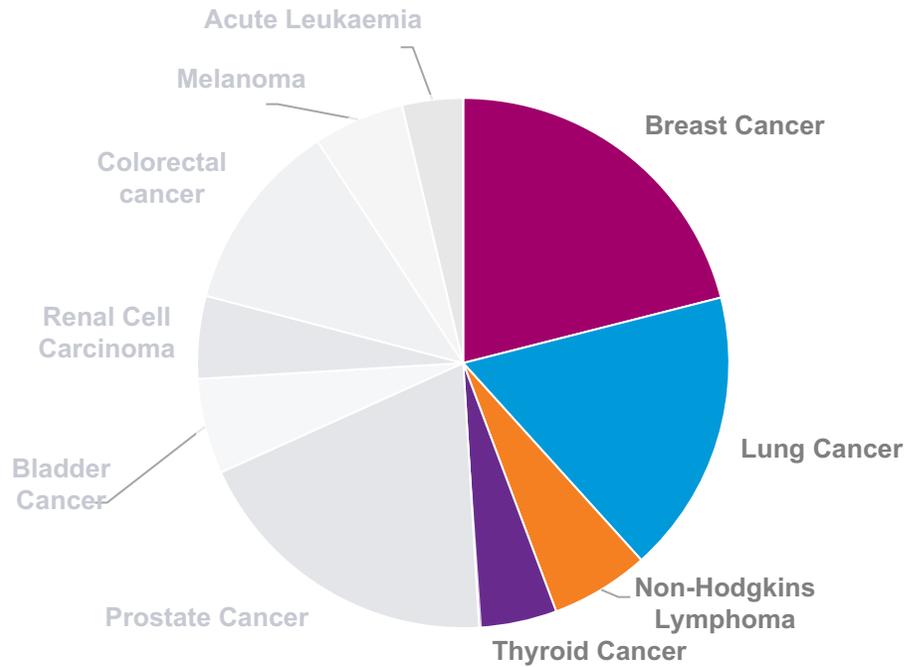

Drives market, menu and global expansion
Accelerates growth

Top cancers in US by incidence

Market and menu expansion accelerates growth

VERACYTE

Addressing **4 of top 10** cancers

~680,000
patients/year

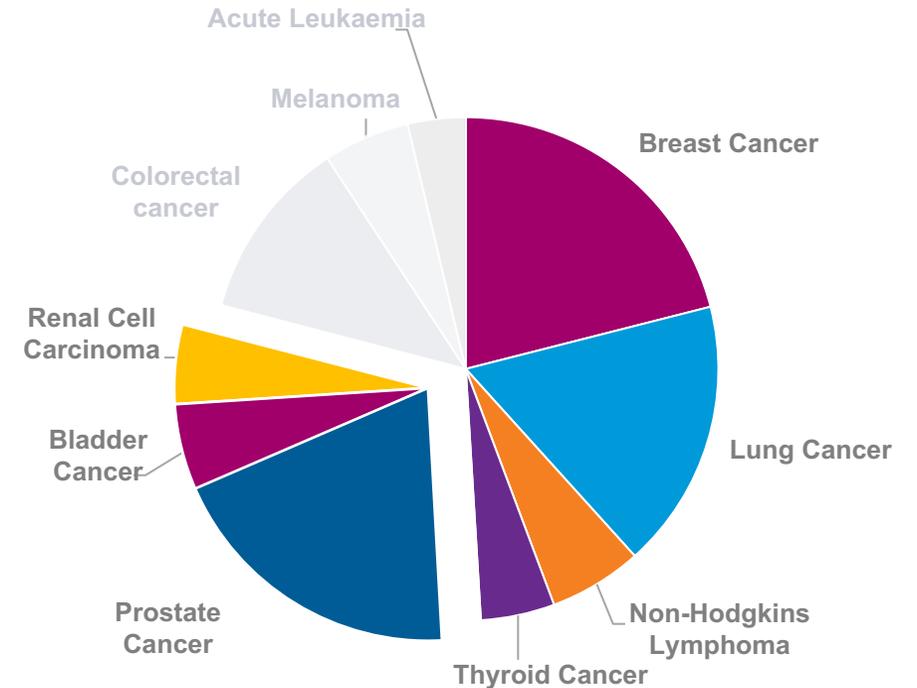

~60% increase

\$2B+ TAM
in US alone

VERACYTE + Decipher Biosciences

Addressing **7 of top 10** cancers

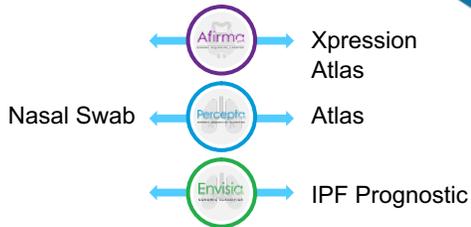

~1,100,000
patients/year

Source: Evaluate Pharma Forecasts
Note: Incidence based on US population in 2022.

Veracyte + Decipher Biosciences

Accelerates our strategic growth pathway

2013 - 2018

2019 - 2020

2021+

Expansion into urologic cancers

Global diagnostic testing and platform leader

Acquired global platform and new indications

Strategic partnerships

Menu expansion

Care continuum expansion

Whole transcriptome sequencing and machine learning

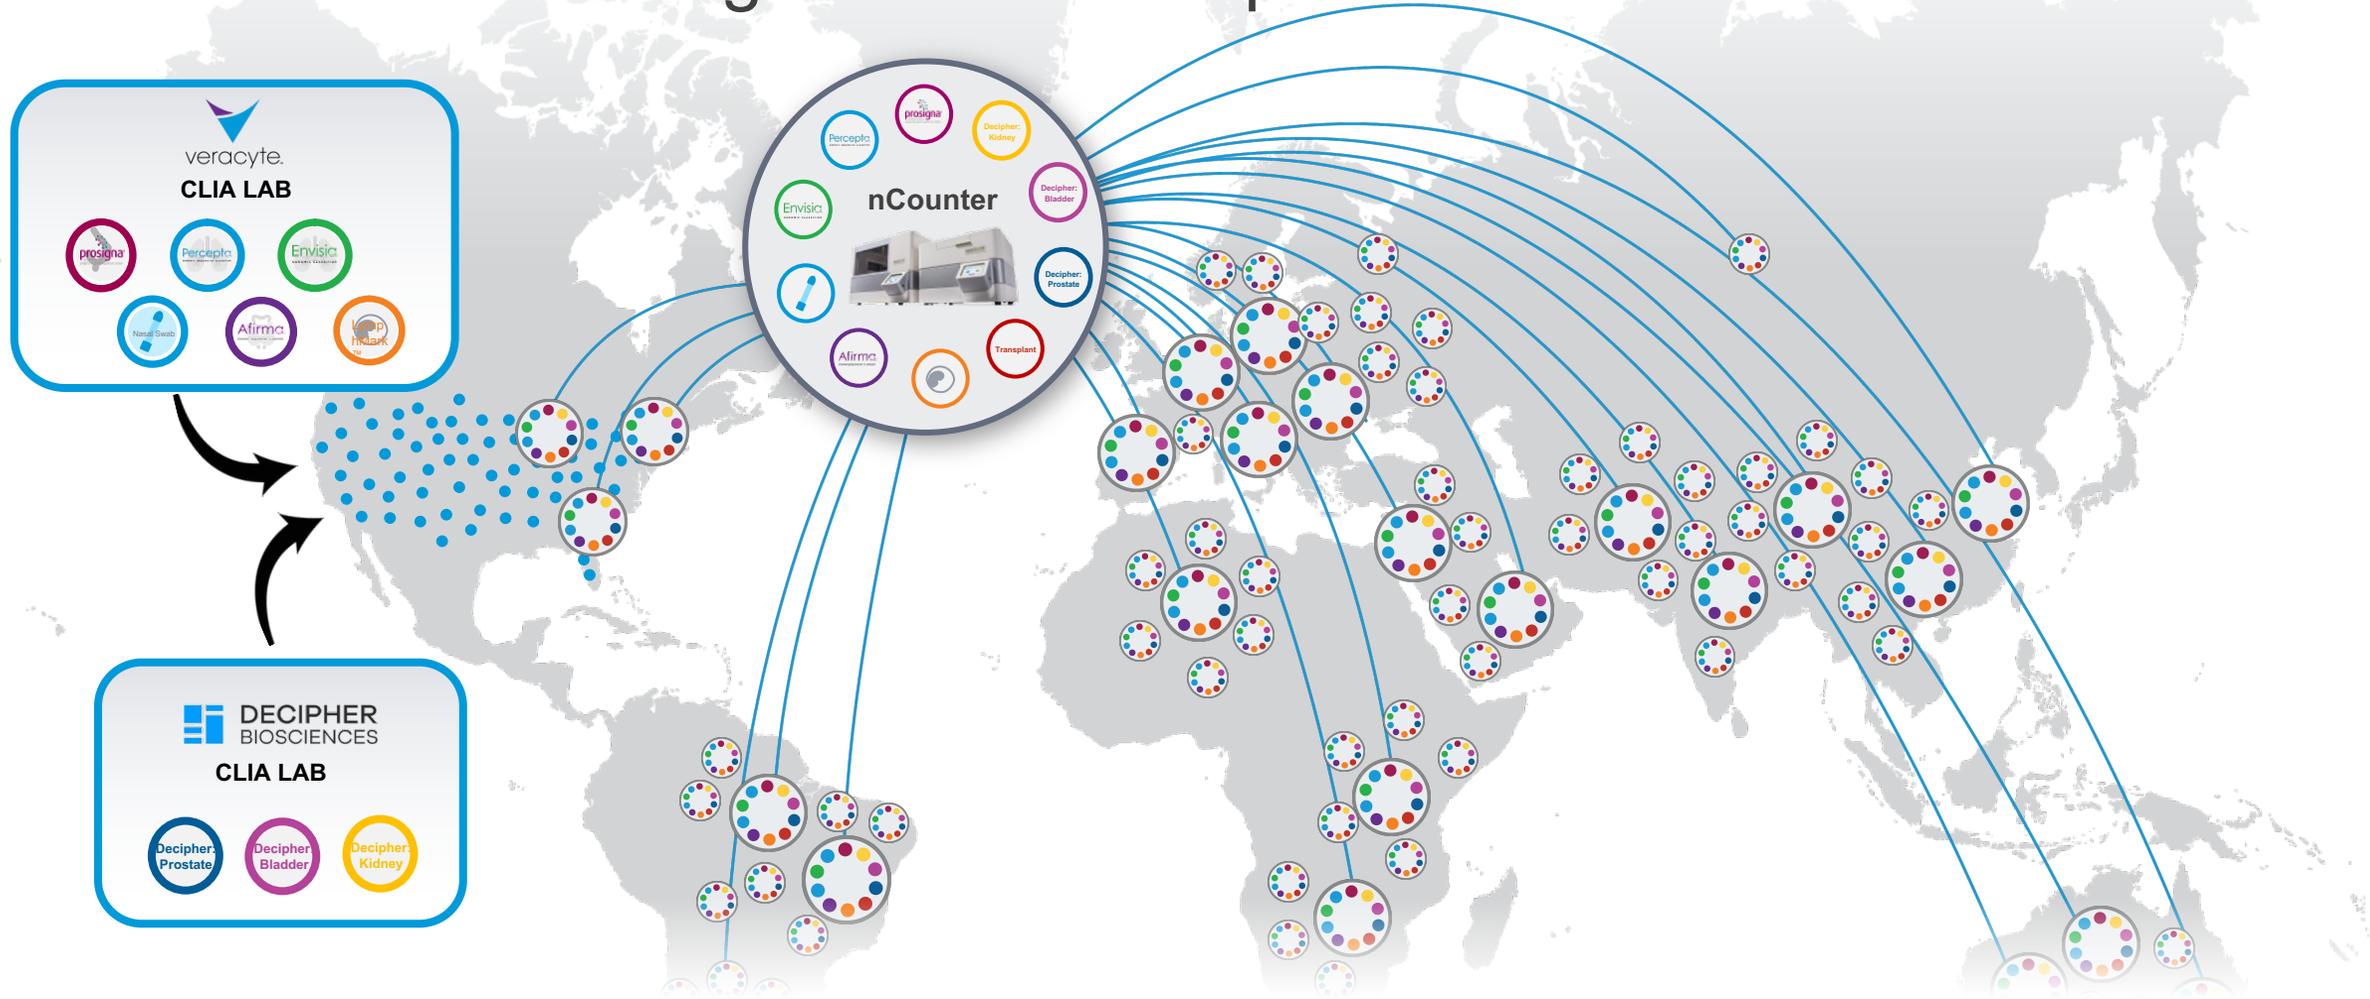

1 Scientific Excellence

2 Channel Expansion

3 Menu Expansion

Veracyte + Decipher Biosciences

Further solidifies our global leadership

Company estimates

~\$50+ BILLION LONG-TERM GLOBAL TAM

April 5, 2021

Our Novel Products

Veracyte's lung cancer franchise

Genomic insights to drive care at each step of the patient's journey

FUTURE Pre-cancer Detection

Nasal Swab
Classifier

~\$39B

Early Detection

Nasal Swab
Classifier

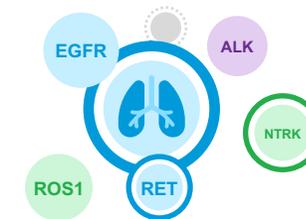

~\$5.5B

Diagnosis

~\$700M

Treatment

Percepta Genomic Atlas

~\$1.4B

FUTURE Support Early- Stage Therapeutics

Biopharma
Collaborations

Johnson & Johnson

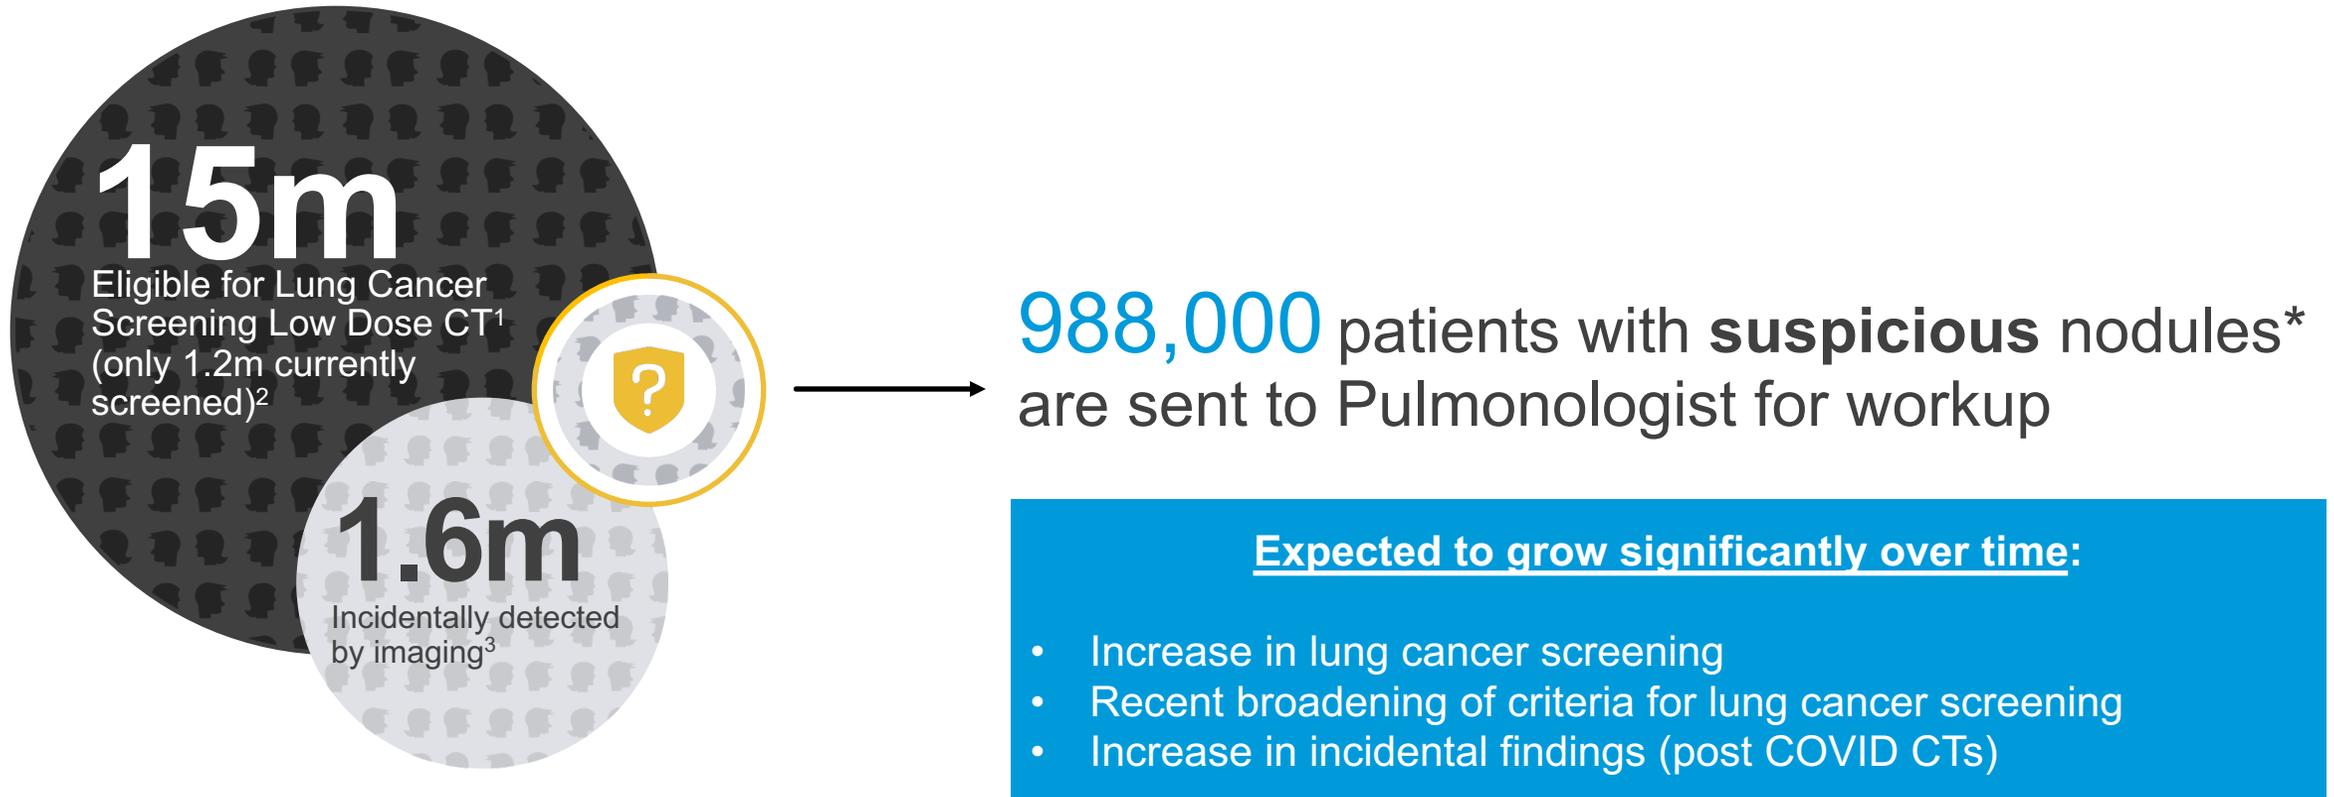

A New Era in Lung Cancer Early Detection, Diagnosis and Treatment

- Minimally invasive
- Comprehensive genomic profiling data
- Faster, more timely answers and care decisions

The market opportunity

Increased market opportunity with revised screening guidelines

* Suspicious nodules include LungRADS3, 4 nodules and Intermediate/High risk nodules

¹ Cancer Epidemiol Biomarkers Prev. 2012 July ; 21(7): 1049–1059. doi:10.1158/1055-9965.EPI-12-0343

² Richards TB, et al. Morbidity & Mortality Weekly Report. 2020: 69(8); 201-206.

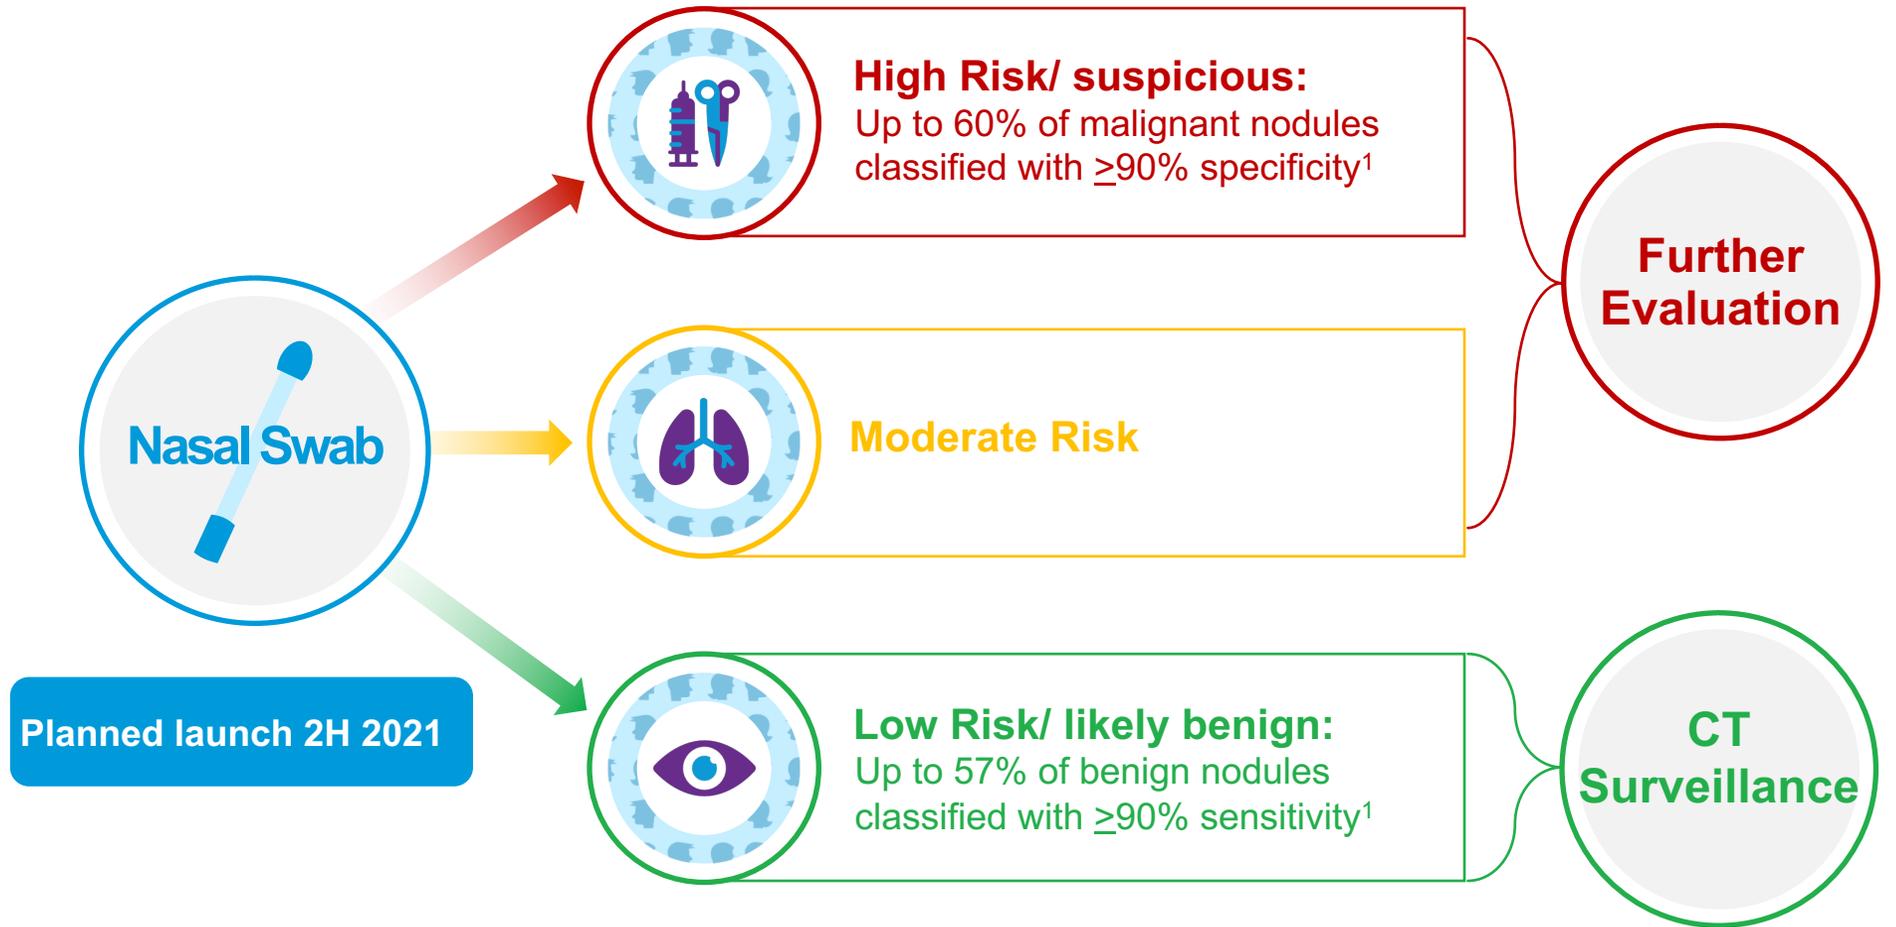

³ Gould et al., ATS Journal, 2015

Nasal Swab

Objective genomic tool to appropriately guide patient's next step

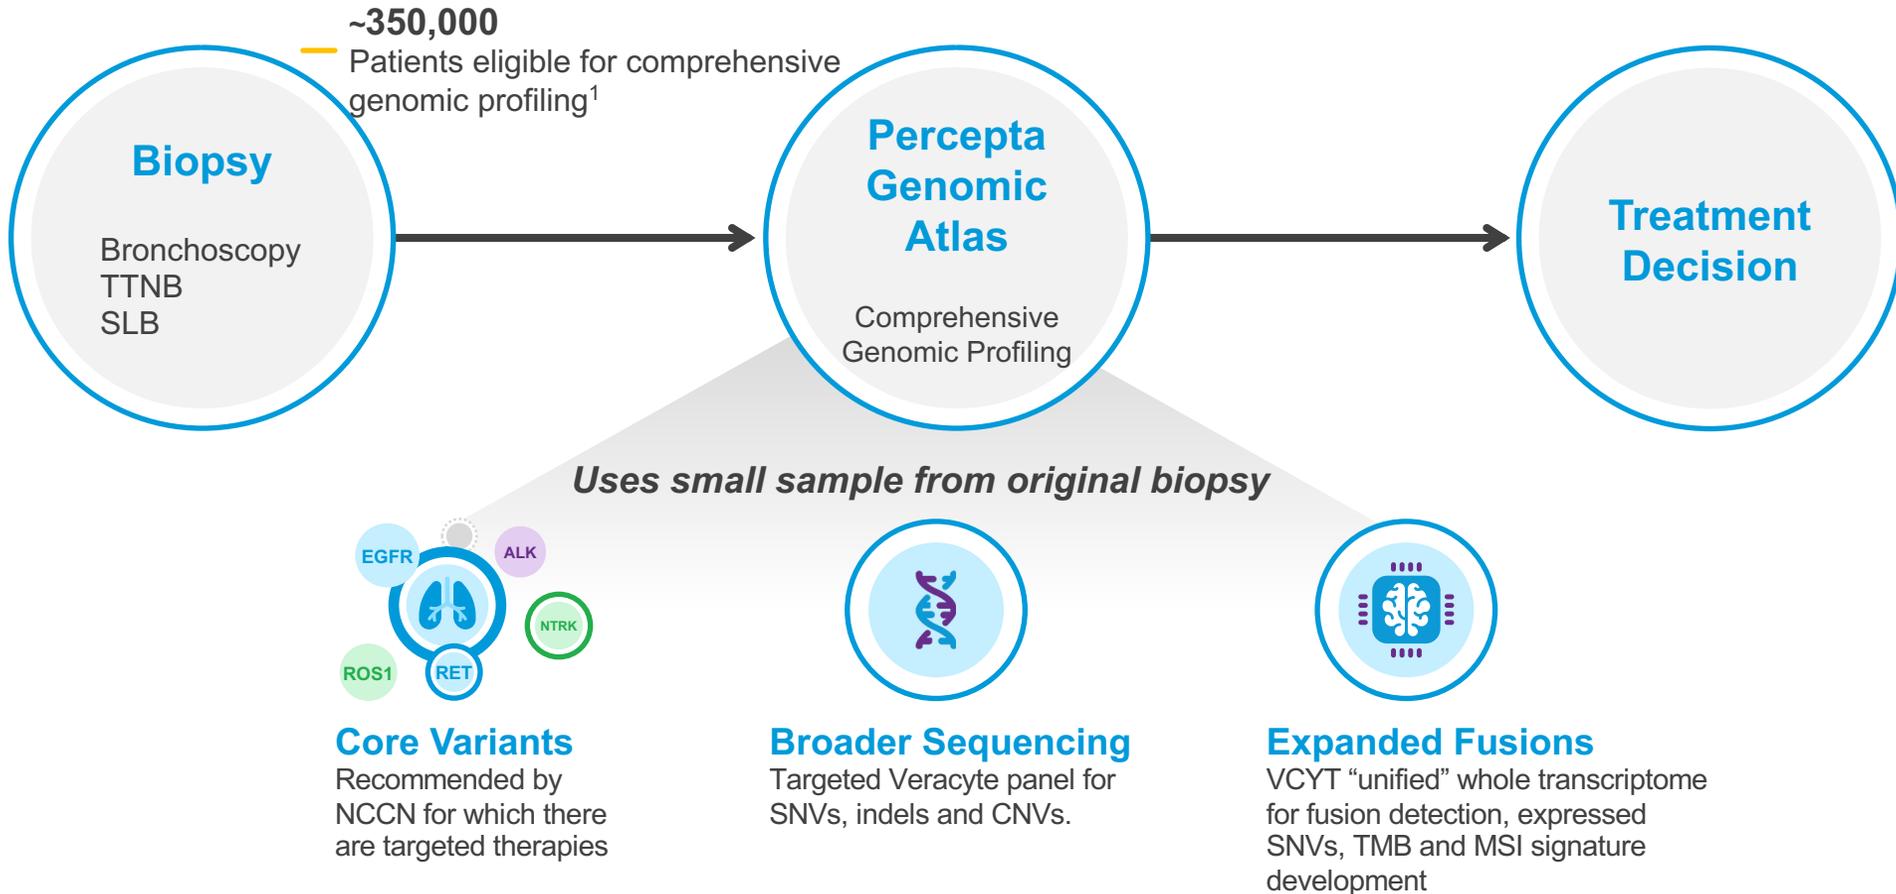

Patients with **screen detected or incidental lung nodules** referred to pulmonologist for evaluation

¹ Internal Data

Percepta Genomic Atlas

Comprehensive profiling to inform treatment decision at the time of diagnosis

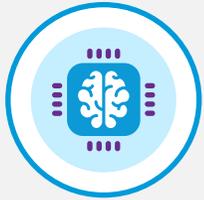

¹ SEER data, cancer.gov
TTNB: transthoracic needle biopsy
SLB: surgical lung biopsy
NCCN: National Comprehensive Cancer Network

Planned launch 2H 2021

Percepta Genomic Atlas

Potential impact in lung cancer

Faster, More Comprehensive Molecular Testing

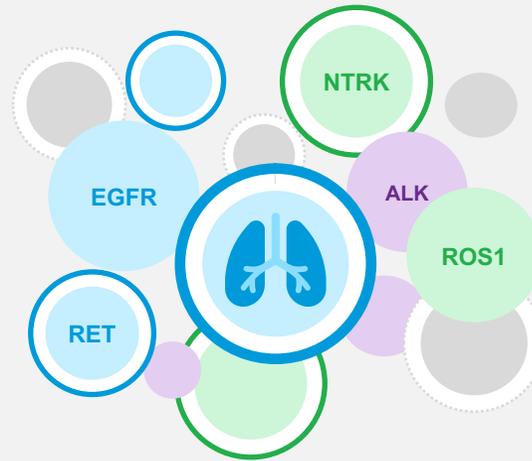

Earlier, More Appropriate Treatment

More Efficient Healthcare Deliver

Improved Treatment Outcomes

Comprehensive Biorepository of ALL Stages of Lung Cancer

Biopharma Partnerships

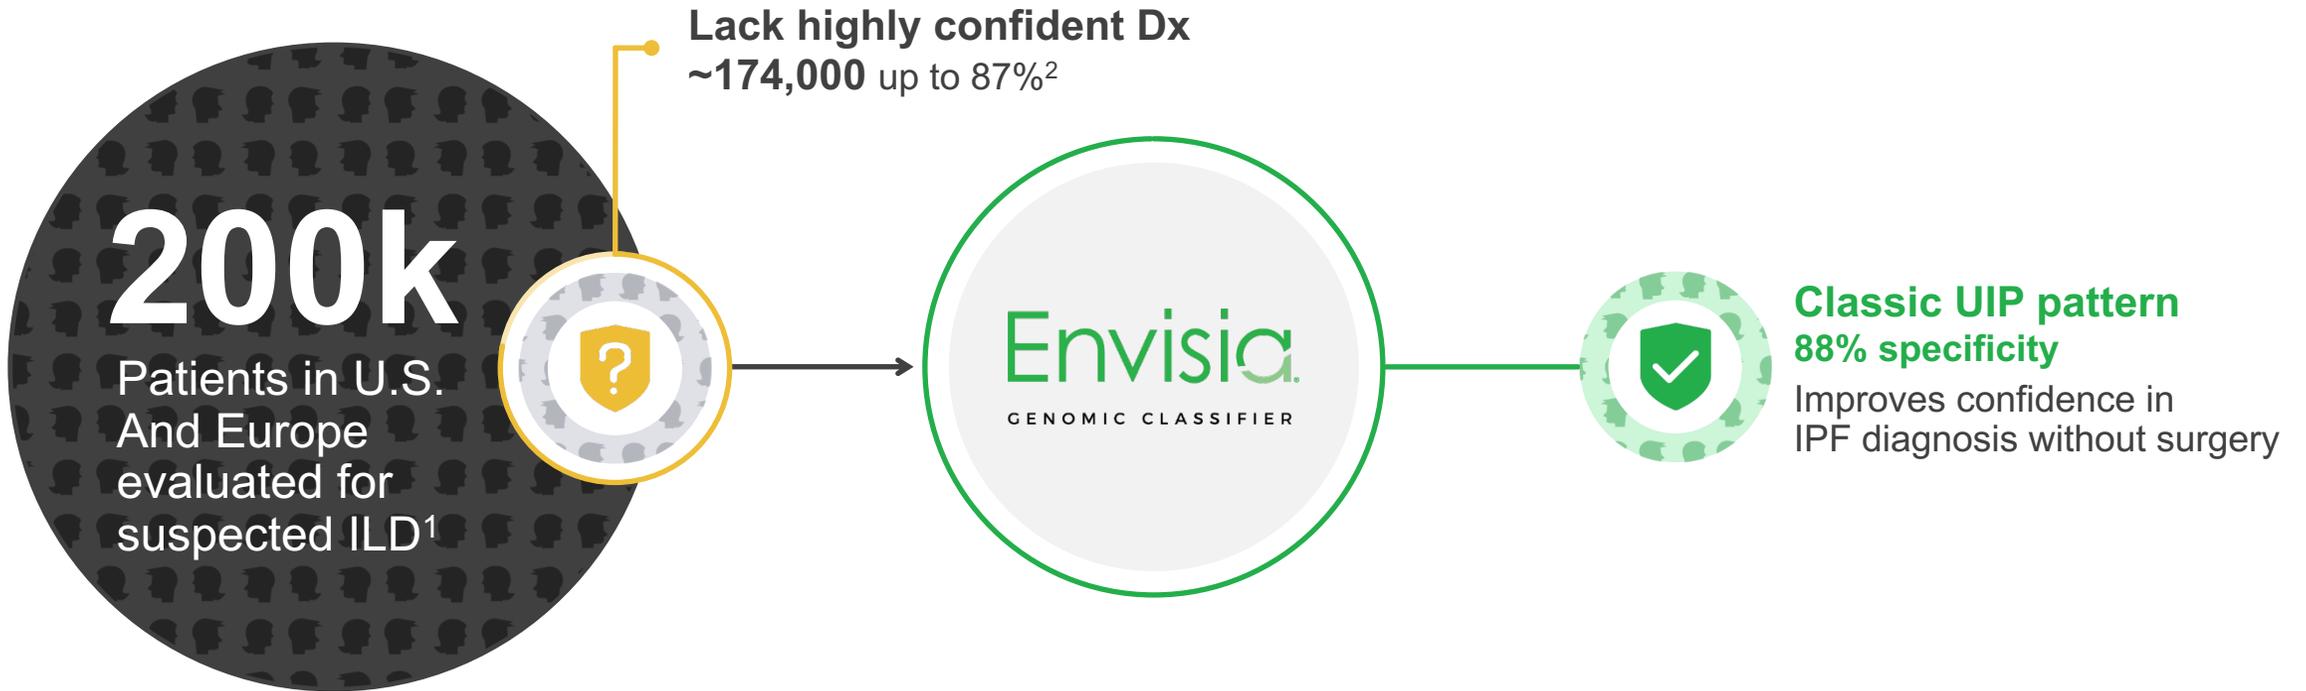

Bringing Targeted Therapies to Earlier Stage Cancer Patients

Precision Medicine Advances

Idiopathic Pulmonary Fibrosis (IPF)

Accelerating diagnosis to get patients life-extending treatment faster

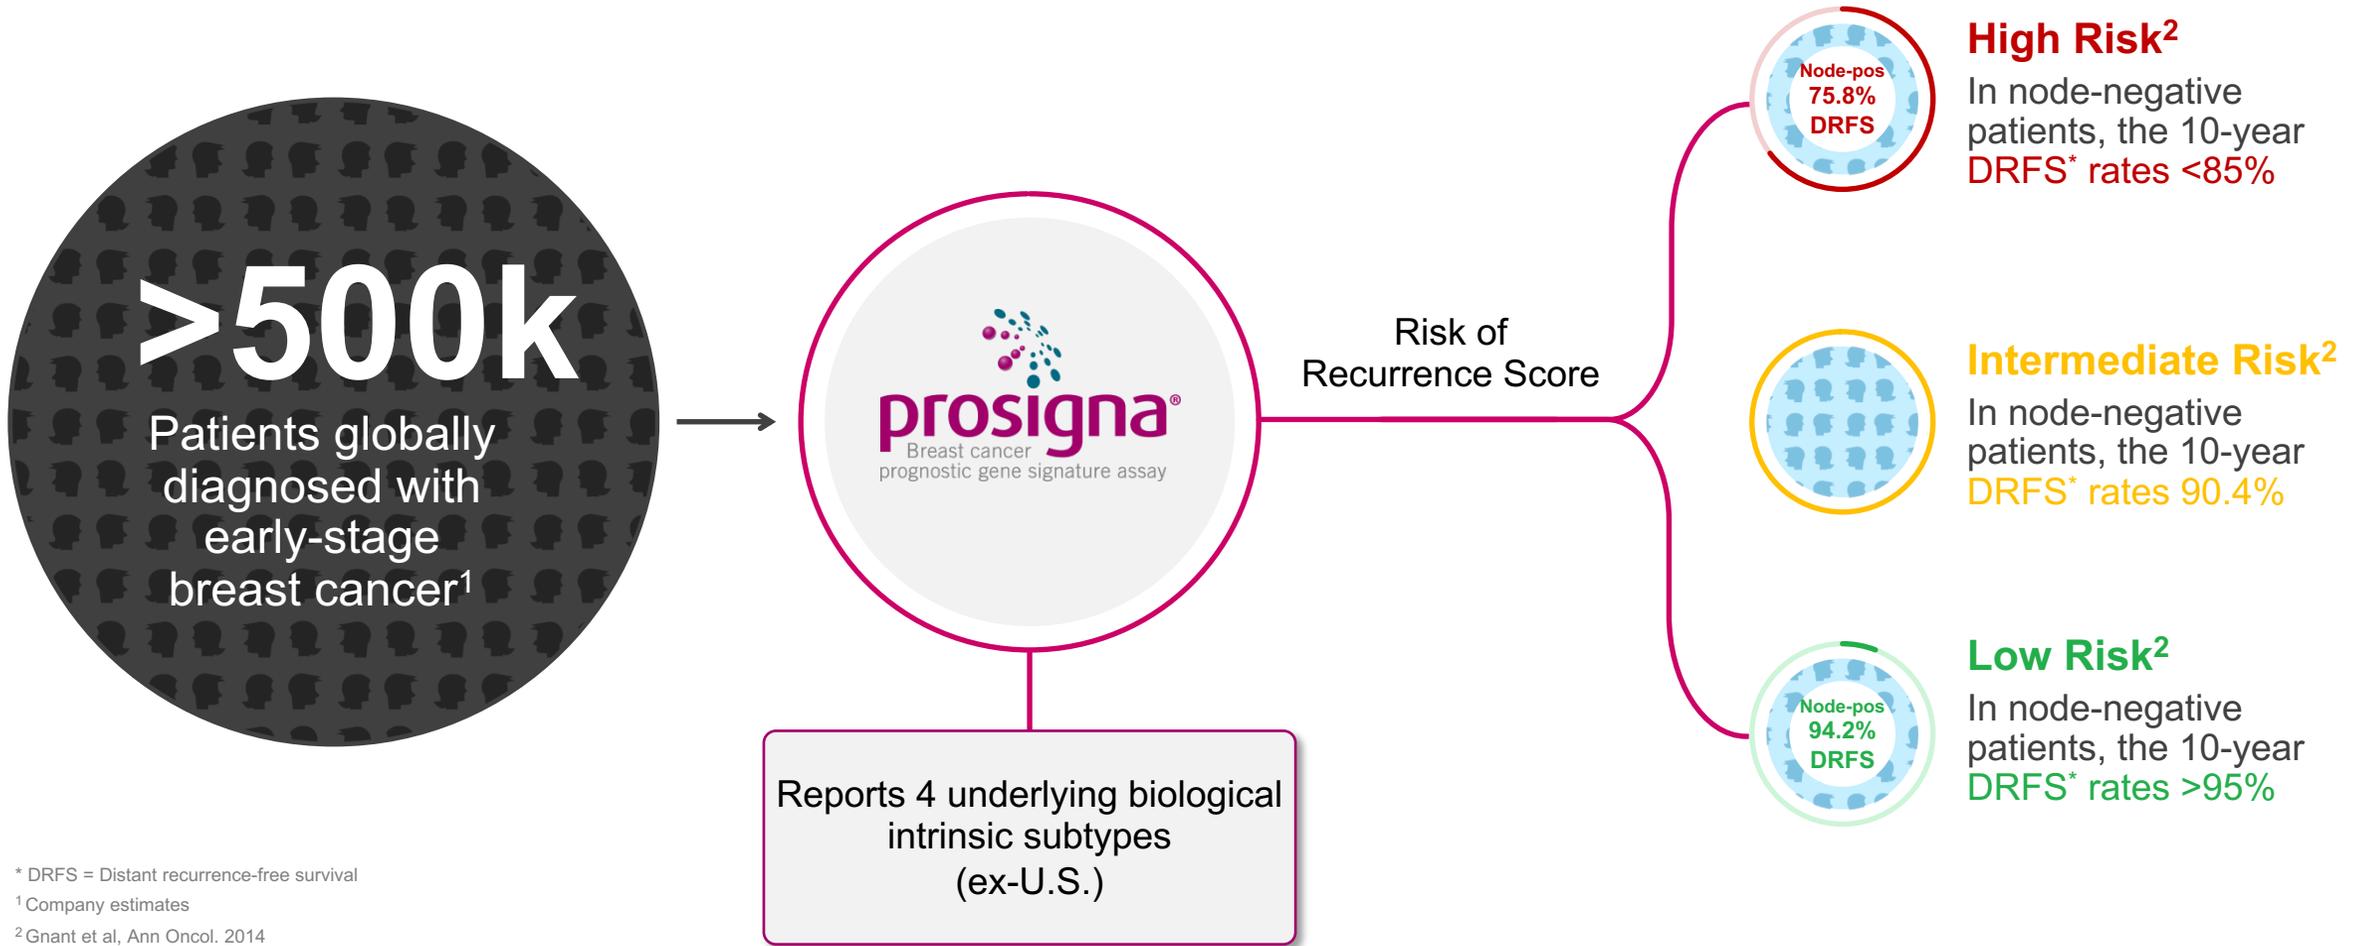

¹ Company estimates

² Raghu et al, The Lancet Resp Med., 2019

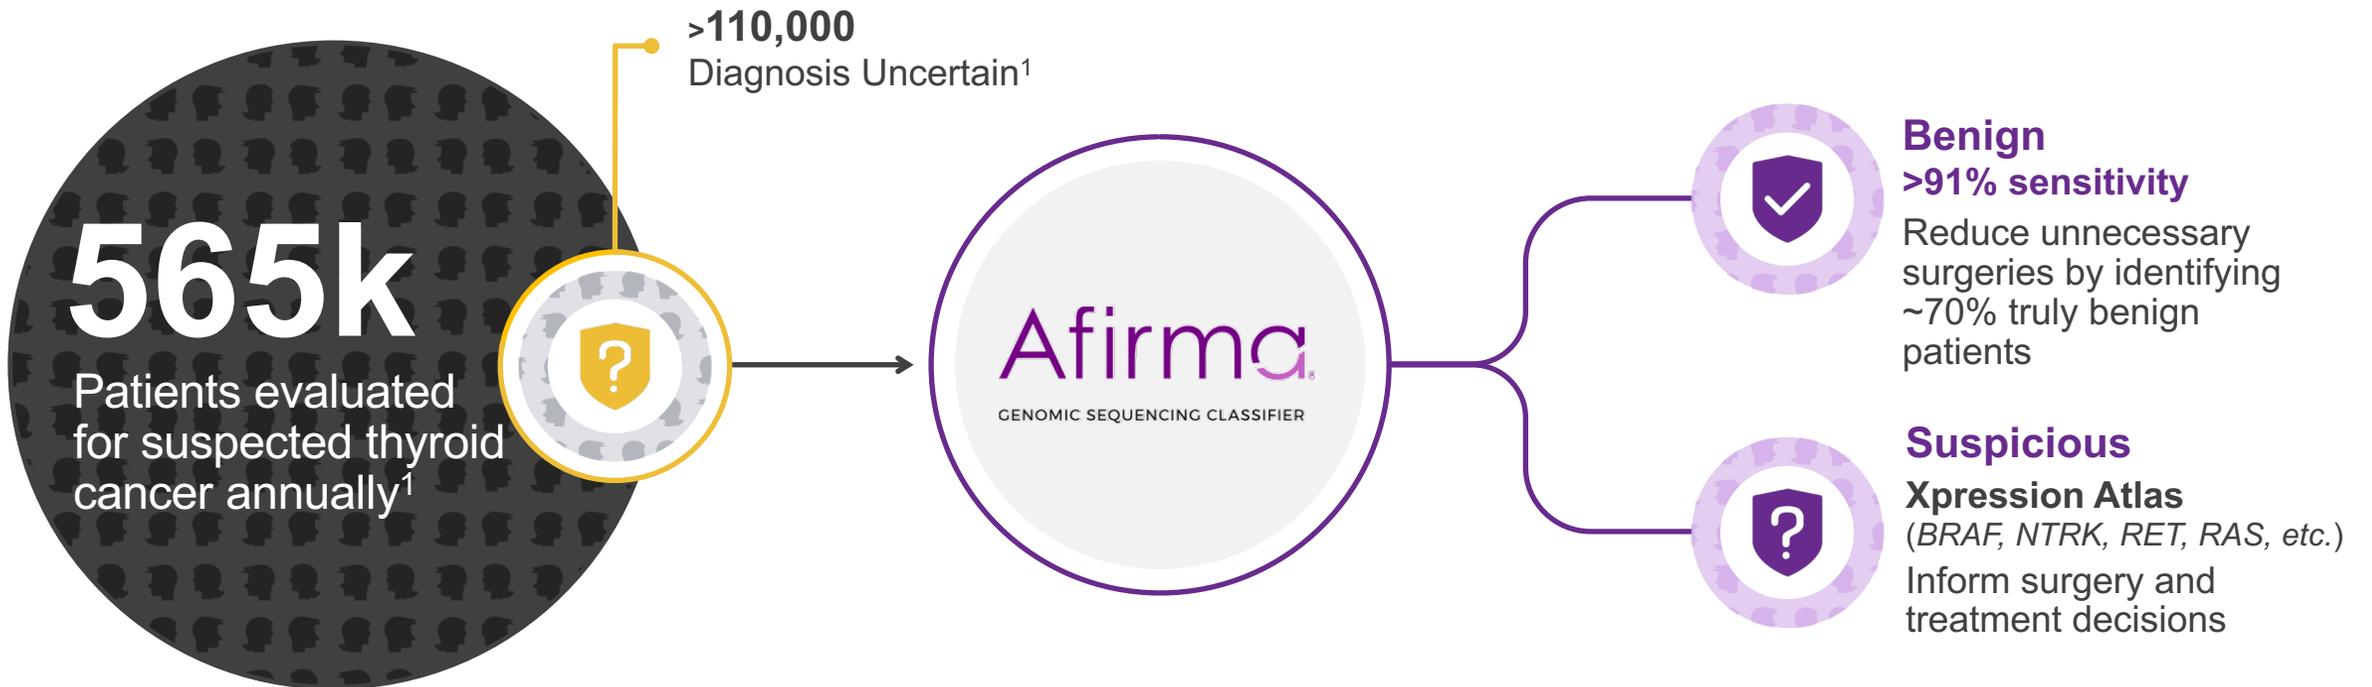

Breast Cancer

Inform next steps for patients with early-stage breast cancer

Thyroid Cancer

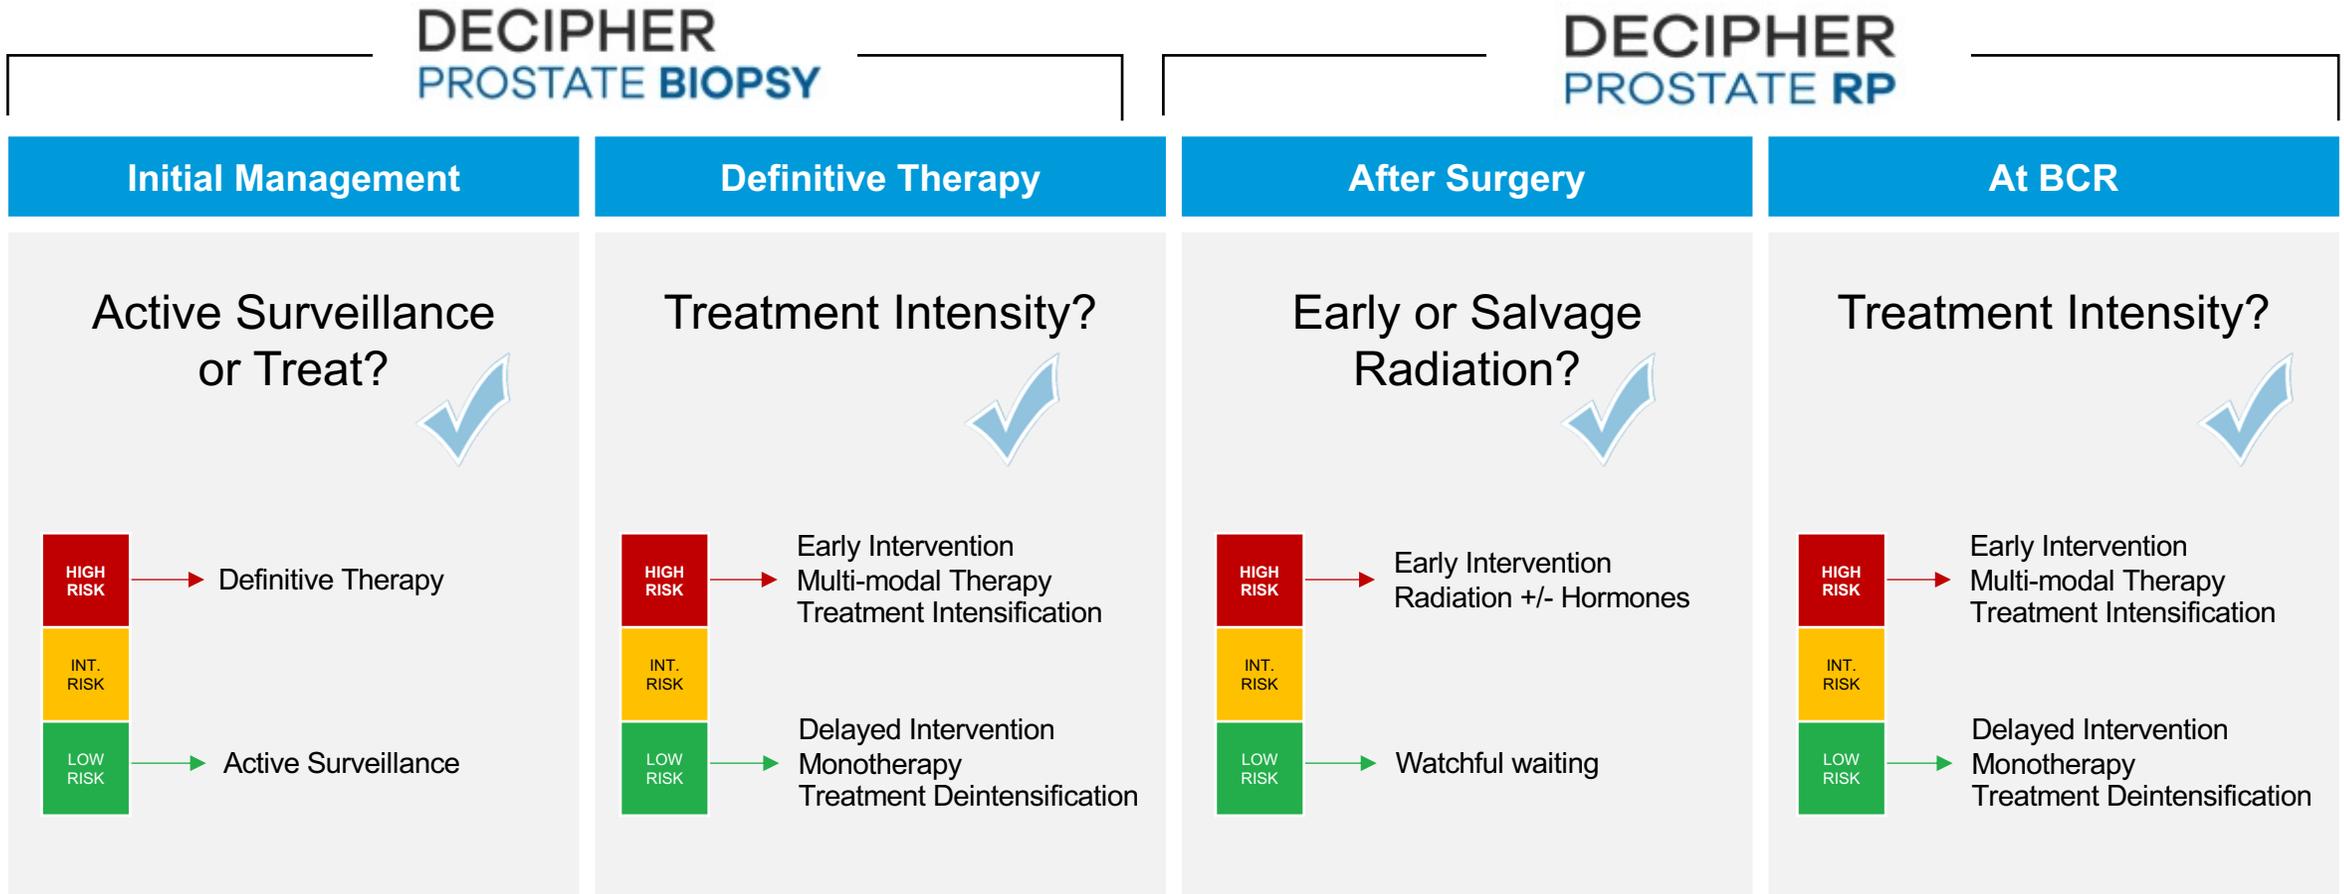

Helps patients avoid unnecessary surgeries and enables faster treatment

¹ Company estimates

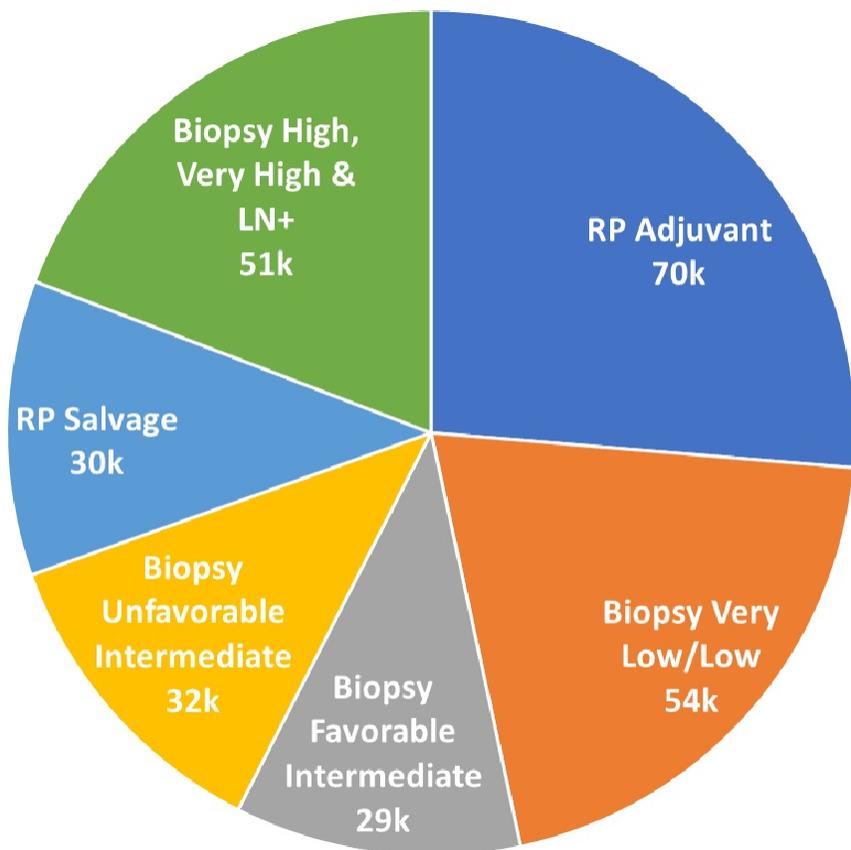

Decipher in prostate cancer

Enables physicians to personalize treatment across localized disease

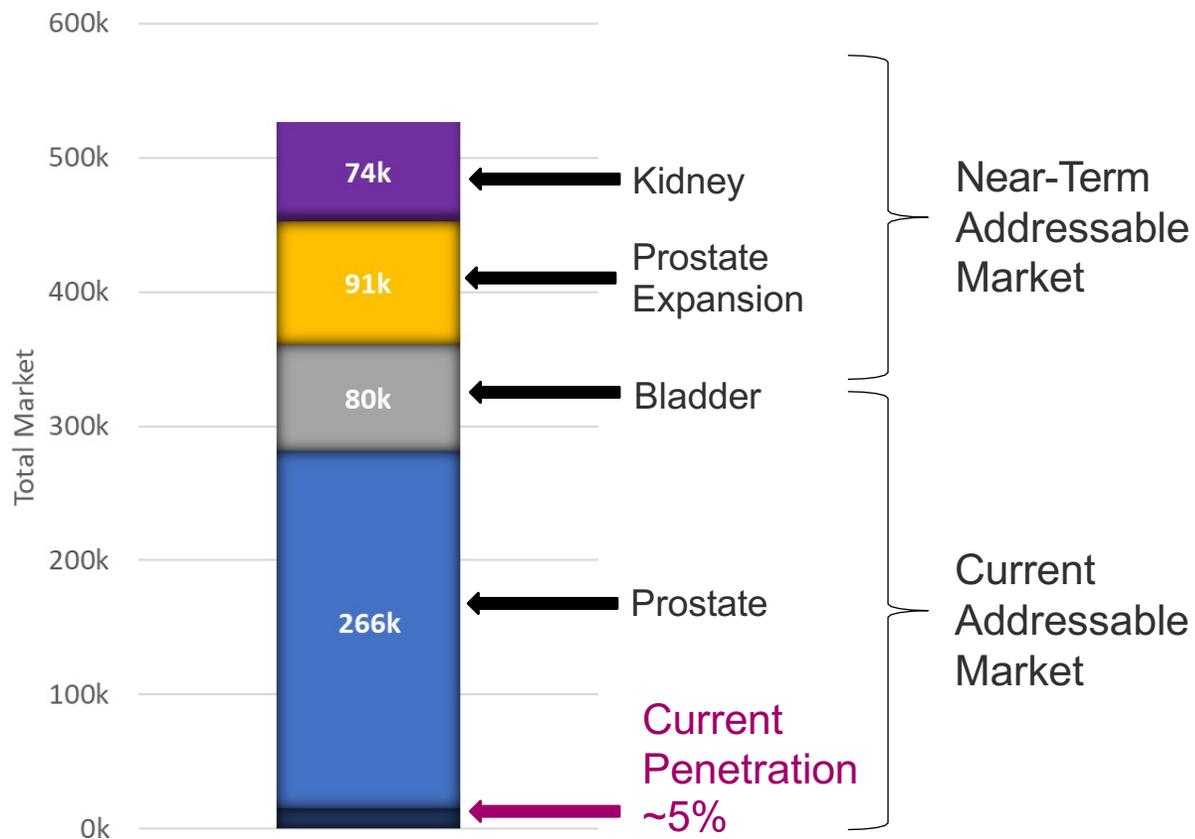

Current & Potential Market Opportunities

Current Addressable Market/Incidence

266k x \$4k = \$1.1B Current TAM

Penetrated, Current, Near-Term Markets

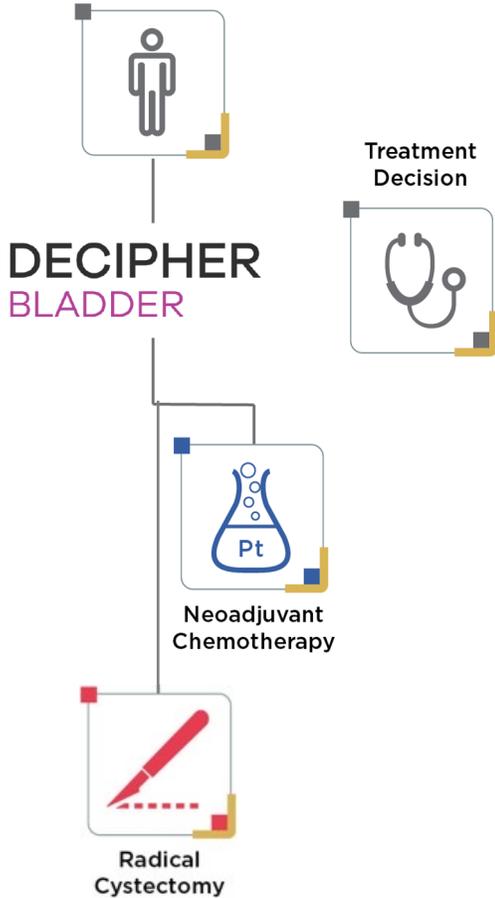

511k (Current + Near-Term) x \$4k = \$2.0B TAM

Decipher Bladder Cancer Opportunity

Anticipated to be one of the first genomic tests for localized Bladder Cancer

Attractive Market	Clinical Decision Points	Decipher Subtyping Value
<p>\$320M* Revenue Opportunity</p> <p>80,000 cases diagnosed annually</p> <p>No current competition for treatment prediction & upstaging</p>	<p>Chemotherapy Decision Point Guidelines recommend neoadjuvant chemotherapy but poor patient response & severe toxicity</p>	<p>Decipher has shown predictive utility for patient response to neoadjuvant chemotherapy</p>
	<p>Surgery Decision Point Which patients are at greatest risk for upstaging at radical cystectomy, bladder removal?</p>	<p>Decipher has shown predictive risk of upstaging tumor at surgery</p>
	<p>Immunotherapy Decision Point Which patients will benefit? Standard biomarkers (PD-L1 & Tumor Burden) don't predict response</p>	<p>Decipher has shown predictive utility for Keytruda® response</p>

PD-L1 – predictive biomarker for immunotherapy treatment
Keytruda®= Immunotherapy drug

* = Annual Incidence, assumes \$4K/test, current CMS rate for prostate

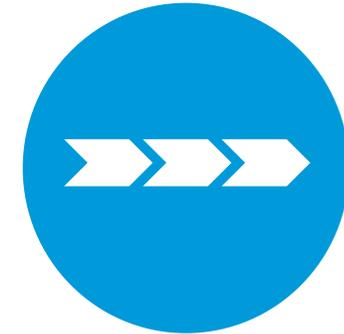

Decipher GRID

Comprehensive urologic cancer biorepository to drive further value

Decipher GRID Database

- >90,000 patient samples
- >46,000 genomic transcripts
- Clinical outcomes, demographics, pathology and claims

Fuels Pipeline Development

Enables Biopharma partnerships

Numerous catalysts to drive 2021 momentum

	Product Launches	Reimbursement Expansion	Key Evidence Development

* Pending completion of Decipher acquisition

Attractive financial profile

Accelerating Revenue Growth

Momentum illustrated by post-COVID recovery
Guidance: \$190M-\$200M in 2021 revenue (~65% total revenue growth, at midpoint of the range)

Attractive “Gross Margin”

Decipher expected to be gross margin accretive
Veracyte generated 65% gross margin for FY 2020

Selling and Marketing Leverage

Accountability through General Manager structure: urology cancers; pulmonology; and endocrinology & breast cancer

Pathway to Profitability

Decipher and Veracyte each expected to generate 2H 2020 positive cash flow from operations

Strong Balance Sheet

No debt
~\$350M cash as of December 2020

* Pending completion of Decipher acquisition
