Veracyte to Present at the Cowen and Company 35th Annual Healthcare Conference

SOUTH SAN FRANCISCO, Calif., Feb. 23, 2015 /PRNewswire/ -- [Veracyte, Inc.](#) (Nasdaq: VCYT) today announced that Bonnie H. Anderson, president and chief executive officer, will present at the Cowen and Company 35th Annual Healthcare Conference on Monday, March 2, 2015 at 4:50 p.m. ET in Boston, Mass.

The live audio webcast and subsequent replay may be accessed by visiting Veracyte's website at <http://investor.veracyte.com>. Please connect to the website at least 15 minutes prior to the live webcast to ensure adequate time for any necessary software download. The webcast will be available shortly after conclusion of the presentation and archived on the company's website for 14 days following the presentation.

About Veracyte

Veracyte (Nasdaq: VCYT) is pioneering the field of molecular cytology, focusing on genomic solutions that resolve diagnostic ambiguity and enable physicians to make more informed treatment decisions at an early stage in patient care. By improving preoperative diagnostic accuracy, the company aims to help patients avoid unnecessary invasive procedures while reducing healthcare costs. Veracyte's first commercial solution, the Afirma Thyroid FNA Analysis, centers on the proprietary Afirma Gene Expression Classifier (GEC) to resolve ambiguity in diagnosis and is becoming a new standard of care in thyroid nodule assessment. Since launching its Afirma solution in 2011, Veracyte estimates it has helped approximately 10,000 patients with thyroid nodules avoid unnecessary surgery, reducing healthcare costs by millions of dollars. Afirma is recommended in leading practice guidelines and is covered for more than 140 million lives in the United States, including through Medicare and most commercial insurance plans. Veracyte intends to expand its molecular cytology franchise to other clinical areas, beginning with difficult-to-diagnose lung diseases. The company is in late product development for a genomic test to resolve preoperative ambiguity in lung nodules that are suspicious for cancer. Veracyte is also developing a second product in pulmonology, targeting interstitial lung diseases that include idiopathic pulmonary fibrosis. For more information, please visit www.veracyte.com.
